THE FOLLOWING RESOLUTION WAS READ TO COURT.

WHEREAS, the County School Systems and the Special School Districts in the State of Tennessee are supplementing their teacher salaries and,

WHEREAS, it is in the best interest of the children to have qualified and certified teachers such as Weakley County now has, we feel that it is in the best interest of the Weakley County School System to ask that the Weakley County School Board recommend to the Weakley County Court that they provide revenue to insure the administrative and teaching personnel of the system a local salary increase of $173.00. We believe that this will help to insure the children of Weakley County the rights and benefits just as the children of neighboring counties and districts.

The undersigned teachers do hereby request that you give this your serious consideration believing you will act for the benefit of all our children.

This resolution was drawn upon the request of every member of the association present with the exception of four.

Motion was duly made, seconded; and carried that the above resolution be filed, studied, and taken up at July next term of Court.
