

THE WEAKLEY COUNTY CORONAVIRUS PREVENTION PLEDGE

Each one of us has an important responsibility in preventing the transmission of Coronavirus disease 2019 (COVID-19). While this is a global pandemic with serious effects on our nation and state, I understand that we must all do our part locally to halt the spread of this virus in Weakley County. Moreover, I believe that if every county and city across the nation would take this step in personal accountability to prevent transmission on the most local level, many lives could be saved. By signing this promise today, I pledge to do all that I can to **#FlattenOurCurveinWeakleyCounty**.

I understand that Coronavirus is a respiratory illness that spreads from person to person and has resulted in thousands of confirmed cases and deaths worldwide. I understand that the Center for Disease Control and Prevention [CDC], World Health Organization [WHO], and experts in the fields of healthcare and public safety agree that the best way to prevent the illness is to avoid exposure.

Therefore, by signing this promise, I pledge to protect myself and thereby every individual with whom I encounter from potential exposure by:

- ❖ Implementing a Weakley County Work-Home Plan for my household: If I cannot work from home, I vow to go from work directly to my home and vice versa whenever possible; and
- ❖ Limiting my interaction with individuals outside of my household to virtual interactions whenever possible; and
- ❖ Keeping the physical distance of six (6) to ten (10) feet with others wherever possible; and
- ❖ Washing hands, staying home when sick, calling my doctor if starting to exhibit symptoms, wearing a mask when needed, and adhering to CDC & WHO guidelines for prevention.

I pledge to make it my mission to **#FlattenOurCurveinWeakleyCounty** for the protection of myself, my household, my work unit, and thereby every individual who lives in Weakley County, Tennessee. I will furthermore encourage others to take this pledge and adhere to the actions of this vow.
